

Go to High Steppin' for horses of color

If you want to breed for color – or buy horses of color – one of your best bets in the American Saddlebred industry is High Steppin Farm, owned by Kathy and Gary Herbst.

Located in northeast Iowa near Dubuque and the Illinois and Wisconsin borders, the Herbsts own more than a dozen stallions ranging in color from palomino to grey to spotted to buckskin, all producing a virtual rainbow of foals each year, all for sale. The 32 broodmares on the farm are equally colorful and some are former show horses.

Visit the website at www.highsteppinfarm.com to preview the full array of stallions and foals for sale.

High Steppin stallions stand to approved mares only and all are offered at private treaty. Videos are available.

"Breeding 'quality' is our goal," Kathy explains. "We want action, attitude and movement – and we always get color. Most of our youngsters are sold when they are weanlings, often to show homes or for personal use."

A second generation saddlebred owner and breeder, Kathy has "always" loved the breed. She shows her stock at the IA State Fair and ASB shows in her area.

The following stallions stand for 2003 at Sanctuary Saddlebreds, Sam Lopez, 3977 Everett Road, Urbana, OH.43078. (937) 484-3264.
