This gorgeous son of The Touch is a walking machine! According to his trainer, Betouched has only "walking bones". His gait is the ideal for the TWH, reaching from the shoulder in the front with a deep stride behind. He has always used his shoulders and reached since he was born. Betouched also has an awesome back end. His owner comments, "When he is in a running walk, if I put one foot on a rear hoof print, I cannot stride and reach the other rear hoof print!" Due to a severe shoulder injury when he was three years old, he has only been shown sparingly. However, he has always done well at the shows, winning 1st, 2nd or 3rd place ribbons. With loads of talent, superior natural gait, movie star good looks and a blue blooded pedigree, Betouched would be a great cross for your mares!
