***Bullet has established himself as one of the nation's leading sires of pleasure and trail walking horses. By the grey Senator's Sterling, whose color line traces through Top Wilson to foundation sire Bramlett, Bullet is out of a Red Bud's Rascal mare. Red Bud's Rascal (1967-1997) represented only the third generation of the same bloodline in the Clark/Oliver families since 1923. Bullet's foals are noted for their natural walking gaits, calm dispositions, good looks and their sire's ability to canter. Not only popular on the trails, Bullet's foals are in great demand with field trial riders, whose horse-back activities demand mounts not only with smooth gaits, but intelligence, steadiness and a willingness to please. Currently, Bullet is siring 75% gray foals from solid colored mares. Come, ride Bullet for yourself, then choose the sire of your next foal!***
